

**ENVIRONMENTALLY FRIENDLY
DUST CONTROL**

DUSTY ROADS?

DUST/BLOKR[®] SB (aka DUST|STOP)

Environmentally Friendly, Non-Toxic & Non-Corrosive

DUST/BLOKR[®] SB is a formula consisting of natural ingredients specifically engineered for haul roads and access roads. Applicable to almost any soil type, it is applied using standard equipment and techniques.

DUST/BLOKR[®] SB was designed to provide an environmentally friendly, non-corrosive and cost-competitive replacement for calcium and magnesium chloride, as well as hydrocarbon based products and even water!

DUST/BLOKR[®] SB is not adversely affected by heavy rains or long periods of dry weather and has no adverse effect on the environment or vehicles, due to its non-corrosive properties. When used at large scale mining operations, vast amounts of water, fuel and operating costs are saved.

REDUCES MAINTENANCE COSTS

- Enhances engineering properties & stability of the road base
- Reduces need to grade treated roads

NON-CORROSIVE & ENVIRONMENTALLY FRIENDLY

- Will not cause corrosion on vehicles or application equipment
- No adverse impact on roadside vegetation

INCREASES WATER RESISTENCE RESULTING IN BETTER PERFORMANCE IN ALL WEATHER CONDITIONS

- Helps shed water long-term

REQUIRES LESS FREQUENT RE-APPLICATION AS COMPARED TO TRADITIONAL DUST SUPPRESSANTS

COST COMPETITIVE WITH CHLORIDES & HYDROCARBONS

DRAMATIC FUEL SAVINGS COMPARED TO WATERING ROADS

- HAUL ROADS
- ACCESS & SECONDARY ROADS
- TAILINGS PILES
- PARKING LOTS
- TARMACS, RUNWAYS & HELIPADS
- EROSION CONTROL

TESTIMONIAL

SUPERIOR DUST CONTROL

“SINCE WE HAVE USED IT (DUST/BLOKR[®]SB), WE HAVE HAD NO ISSUES WITH DUST AND ARE HAPPY WITH ITS LONG LASTING CAPABILITIES - ONCE CURED IT IS INSOLUBLE IN THE RAIN.”

- JOSE FERNANDES, AIRFIELDS MAINTENANCE SUPERVISOR, PIERRE ELLIOT TRUDEAU AIRPORT, MONTREAL, QB

 **90%+**
REDUCTION IN AIRBORNE DUST
